

SMP MECHANICAL QUICK COUPLER MOUNT KIT HYDRAULIC

The SMP Mechanical Quick Coupler has been designed for quick and easy tool changeover times and handling of heavy loads in harsh conditions. The simple but robust design ensures a long service life, even under extreme use. The coupler's low built construction is designed to maintain the excavator's original characteristics, such as break out force, digging angles and more.

TECHNICAL SPECIFICATIONS SMP MECHANICAL QUICK COUPLERS / MOUNT KIT HYDRAULIC

Model	Locking	Machine size (tonne)	Approx weight kg
SMP4	Mechanical	0.5 - 1.6	9
SMP3	Mechanical	1.7 - 8	35
SMP8	Mechanical	5 - 11	45
SMP2	Mechanical / Hydraulic	11 - 18	70
SMP1	Mechanical / Hydraulic	17 - 30	150
SMP100	Mechanical	30 - 50	270

Weights can vary depending on design of product
